

6 July 1928

Mr. L. M. Hanks
Central Wisconsin Trust Co.,
Madison, Wis.

Dear Mr. Hanks:

I wish to acknowledge receipt of check of
\$13.36.

I also want to thank you for the clipping of the editorial from the Journal of the A.M.A. relative to irradiated ergosterol. I noticed the results obtained by these investigators some time ago, and I am starting a rather elaborate series of experiments acting on their data. Experiments now completed have not borne out their conclusions. I fed doses ten times as large as those reported without any harmful results. Yet these experiments may not have covered the field sufficiently; for instance, it is possible that with a higher intake of calcium the effect of ergosterol might become accentuated. It is from this standpoint that the planned experiments will be initiated. If the data submitted by Kreitmair and Moll are correct within the limitations of their experiments, I am, nevertheless, convinced that they will have no practical bearing, because the toxic dose is so much larger than the therapeutic.

Nevertheless, we must accumulate more information.

Very sincerely yours,

HS:n

Professor Harry Steenbock
University of Wisconsin
Madison, Wisconsin

Dear Mr. Steenbock:

Tom Brittingham just handed me the enclosed clipping which was sent him by his brother who, as you perhaps know, is a doctor and I understand a very good one.

I will be glad to know what impression this article makes on you.

Sincerely yours,

L. M. Hanks

RE: WISCONSIN ALUMNI RESEARCH FOUNDATION.

Dear Mr. Steenbock,

Please find herewith a check for \$13.36
in payment of the items listed in your letter of
July 3.

I think you need never doubt our will-
ingness to take care of any items which you pre-
sent.

Sincerely yours,

L. M. Hanks, Secretary
Wis. Alumni Research Found.
